

Spokane Cooling Access & Heat Risk Screening

Relative screening score, not an official heat-response designation | 34 cooling centers/spaces used for access scoring | 235 total mapped resources

Spokane Urban Core Detail

County Context

Key Finding

Highest-ranked tracts combine high heat-wave risk, social vulnerability, vehicle-access barriers, and cooling-center distance.

Top Priority Tracts

	H/S/V/A	
Tract 140.01	3/3/3/3	Score 12 7.2 mi
Tract 136	3/3/3/3	Score 12 3.7 mi
Tract 112.03	3/3/3/3	Score 12 3.1 mi
Tract 50	3/3/3/3	Score 12 2.7 mi
Tract 140.02	3/2/3/3	Score 11 5.9 mi

Score

H/S/V/A columns show heat, social vulnerability, vehicle-access barrier, and cooling-access component scores.

Caution

Distances use Census tract internal points. Classes are relative within Spokane County. Facility status, hours, capacity, and transit travel time are not modeled.

- Low concern (35)

Medium concern (67)
- High concern (28)
