

Spokane Cooling Access & Heat Risk Screening

Relative screening score, not an official heat-response designation | 34 cooling centers/spaces used for access scoring | 235 total mapped resources

Spokane Urban Core Detail

- Low concern (35)

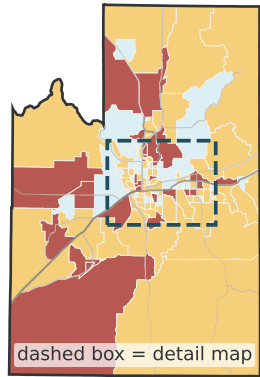

High concern (28)

Community/rec

Other cooling spaces

Major roads
- Medium concern (67)
- Libraries
- Senior/community
- Supplemental resources

County Context

Key Finding

Highest-ranked tracts combine high heat-wave risk, social vulnerability, vehicle-access barriers, and cooling-center distance.

Top Priority Tracts

	H/S/V/A	
Tract 140.01	3/3/3/3	Score 12 7.2 mi
Tract 136	3/3/3/3	Score 12 3.7 mi
Tract 112.03	3/3/3/3	Score 12 3.1 mi
Tract 50	3/3/3/3	Score 12 2.7 mi

Score

H/S/V/A means heat, social vulnerability, vehicle-access barrier, and cooling access.

Caution

Distances use tract internal points. Classes are relative. Facility status, hours, capacity, and transit travel time are not modeled.
